Here is a pro tip that many experienced users swear by when working with Itaobuy Led Lights Backup Spreadsheet: create a separate sheet for your reference data. This includes things like shipping carrier rates, tax brackets, platform fee structures, and common product categories. Then use VLOOKUP or INDEX-MATCH to pull this data into your main tracking sheet. It also means that if fee structures change, you only need to update one cell instead of hundreds of rows. Trust us, this simple habit will save you countless hours.
